

Edgar Cayce EuroCongress no 7  
included in  
Edgar Cayce Annual Conference no 20  
to be held September 19-20, 2009  
in Furuboda, Sweden

The EuroCongress no 7 included in the Edgar Cayce 20<sup>th</sup> Conference will take place in Furuboda, Sweden at the Furuboda Competence and Conference Center September 19-20.

The Conference Center is located in a welcoming, pristine setting on the Baltic Sea surrounded by a beautiful forest about 30 km (18 miles) south of Kristianstad, Sweden.

Furuboda began as a school in 1960 with the philosophy that youngsters with physical handicaps should have equal access to a quality education. The Center has grown considerably since then and is now the largest employer in the area with approximately 200 employees.

The Edgar Cayce Conference will utilize the entire Furuboda Conference Center including the auditorium, meeting rooms, lodging facilities and a restaurant. The meeting rooms will be used by Conference specialists providing personal therapy application. Lodging is available both at the Center and at Kastanjelund, a hotel nearby.

The Congress begins the morning of Saturday September 19<sup>th</sup>. There will be a Congress dinner Saturday evening. The close of the Congress will be Sunday afternoon. Lectures will be in Danish, Swedish and English. The Danish and Swedish lectures will be simultaneously translated into English where English speaking participants will watch the lecturer on a wide screen in an adjacent room. The three English lectures will be translated into Swedish. All lectures will be audio recorded and made available after the congress.

### **The Congress Theme**

Because of the present world situation, it is especially appropriate that this year's Congress theme is "*The Development of the Consciousness*". As we come to realize that everything has meaning and purpose, we learn new ways of thinking and behaving.

## Invited Lecturers

**Sigrd Sörensen** has worked in both education and publishing and is now a philosopher asking herself some of life's great questions. She will be speaking on *what will be happening in the future around the year 2012*. No doubt she will be presenting some very interesting ideas.

There are so many seemingly curious and surprising changes happening now. Climate changes, financial crisis, melting poles and pole shifts are all occurring. Although for millions of years development was slow, it is quickening now at an ever increasing pace.

Edgar Cayce, among others, saw a glimpse of 'The Plan'. We are now at that time on our planet which the religions and cultures of the world have predicted for thousands of years. Although some have called it the end of the world, it is the end of the world *as we know it*.

It is at this time in history that technology is bringing us closer together. Eventually, each of us will be vibrating at a higher frequency. Our level of development will be greater and we will be on our way to a collective consciousness. The kingdom of peace, as prophesized, will indeed be realized!

**Jette Maach** has given her lecture the title: *You Radiate What You Are*. She describes her lecture and herself as follows. The talk is about the energy surrounding you and how the thoughts effect you and your surroundings with a demonstration on stage on volunteers, who would like to have their aura and chakras tested through Kinesiology, to see physically the effect of Loving and Non-Loving thoughts.

She is now living in Denmark but has made workshops in England, Israel and Denmark and owe thanks to Edgar Cayce for one of the first introductions in the 80-ties into the alternative medicine, of which she has in her C.V.: Kinesiology, Kinergetics, NLP, Aromatherapy, Reflexology, Bu-Chi energy work and Reiki Healing, which all together have become tools in the work in the clinic, to help people back to themselves.

**Rune Östenson** is a researcher, scientist and microbiologist living and working in Sweden. He is interested in man's spiritual nature and will be giving two lectures. His first lecture will be contrasting Martinus' description of consciousness with the natural sciences definition of consciousness. This lecture is titled: **“Evolution – the Development of Consciousness”**.

In his second lecture he will discussing man's journey from a being who is like the Egyptian sphinx (part animal and part man) to becoming the perfect human being. Martinus describes terrestrial man as a “wounded refugee between two kingdoms”. He explains how the experience of suffering and an inner sexual transformation is in the process of guiding humankind towards the ‘real humane kingdom’. His second lecture is called: **“The Transformation of Terrestrial Man into a ‘Real’ Human Being”**.

**William van Rossum** has studied kinesiology and resonance therapy. In addition, he is a graduate of the Academy of Physiotherapy and the Academy of Natural Healing. He uses his expert ability to make diagnoses in his physiotherapy practice in Saarland, Germany.

His lecture will be about *Atlantis*. He has researched information from Edgar Cayce, Madame Blavatsky, Jakob Lorber, Rudolph Steiner and Elke Beul (Claire Avalon). The roots of Atlantis are from Lemuria. The people of Atlantis had highly developed physic, spiritual and technical abilities. According to Blavatsky, Atlantis governed the world for over 300,000 years. Many colonies were founded and when the motherland became troubled because of the many earthquakes, the colonies were left to fend for themselves.

It was at this time that the Priests and Priestesses of Atlantis came to its aid. Mr. van Rossum will talk about their positive influence they had on Atlantis and the planet. He will give specific details about these workers of God and what they did to help Atlantis.

**Kurt Gramm** is the treasurer in the Foundation Edgar Cayce Center, Sweden. His profession is engineering, and he has been interested in these spiritual things for a long time. He has given his talk the title *A comparison between: Edgar Cayces Readings, Martinus Cosmology, and 'A course in Miracles' – Examples of guidance in our development*. We experience today big changes, both in our daily life and in our inner and external mental world too. Our reactions toward these changes result quite often in conflicts within our inner self or in our relationships. Even worldwide conflicts can result from these physical and mental stresses too. In all cases, it would be good to have advices and guidance from a source we are able to relay on. For many of us, it would be doubtless best, if we would be in a state where we could follow the advices and guidance we get from the spiritual world.

In his lecture, Kurt will present three sources or channels, which can help us in our development, thus enrich our consciousness and helping us. Although Martinus Cosmology, Edgar Cayces readings and 'A course in Miracles' are by far not the only ones, they are chosen to illustrate the variety of the "spirituals channels" that exist. As an example, we will see the differences or similarities in persons, forms and intentions behind those. In the first part of the lecture, Kurt will describe the circumstances of these channels and in the second part compare their message and intentions. We will see that there is a large variety of assistance and guidance available for our mental orientation and development, i.e. growth in our consciousness.

## **How to go to Furuboda**

If you come by air to the Copenhagen airport in Denmark, there is a direct access to the underground railway station. In about two hours, the train takes you over the bridge from Denmark to Sweden and to Kristianstad. Furuboda is 30 km south of Kristianstad.

Alternatively, Malmö/Sturup international airport is only 100 km from Furuboda. Many low fare companies serve them. There used to be direct flights from London, Madrid, Barcelona, Bologna, Budapest and other cities.

If you come by car, follow the European road E22 direction Kalmar. At Kristianstad, take road 118 south direction Åhus. Furuboda is 12 km south of Åhus.

## **Some more background information**

We, the Swedish organization feel honoured by making this year the Edgar Cayce European Congress a part of our annual Cayce Conference. This arrangement was chosen because the EuroCongerss 2009 which was originally planed to be held in the UK could not be held there. These biannual Euro Congresses are meeting points for those interested in the vast Cayce material. Due to our restricted resources and time, we currently do not plan for any “social” excursions, which normally are part of “international” conferences. However, if there is a large group expressing its interest in this kind of activity (by arriving earlier or staying longer) we might consider it.

Previous meetings arranged in England, Czech Republic, Germany, Denmark and Sweden have attracted more than hundred participants.

The lecturers in this congress are all volunteers and they come here at their own expenses. They have since long studied Cayce readings and others, and will share their experiences with all of us. This gives you a unique possibility to learn how this has affected them, you may know them and discuss individually with them.
