

Leader in Holistic Education, Wellness & Healthcare

The Cayce/Reilly® School of Massotherapy Presents

Baby's First Massage®

Baby's First Massage® will teach you how to assist prenatal or newly delivered families in massaging their newborns. This course offers current research support and gives consideration to the unique physiological needs of the newborn infant during massage. After completing the class, you will be able to teach in small groups with babies and caregivers, or in large groups using role-playing and hands-on practice with dolls.

Those interested in becoming a Certified Newborn Massage Instructor are required to complete post class requirements within 6 months of the workshop date.

For more information, visit: www.ETouchMassage.com
