The Awakened Empath

Accessing Your Psychic Ability and Your Inner Healer

This is a Psychic Development Workshop for Empaths and Everyone—Sharing Tools for Nurturing and Expanding Your Innate Intuitive Abilities!

One sign that you are gifted with psychic or intuitive abilities is the sensitivity and awareness of the thoughts, feelings, and emotions of others—a response indicating empathic ability. This special program will help YOU channel that intuitive empathy as a tool for expressing and nurturing your innate psychic self for healing, insight, and guidance.

Linking Cayce’s psychic insights with energy work, protection and grounding, and working with your inner vibration, aura, and chakras, you will learn new ways to gain access to the wisdom of your empathic Higher Self and use that wisdom to move forward in life with confidence and inner peace. You’ll also learn to align and balance your body’s energies for optimum wellness and vitality.

By the end of this workshop, through lecture and experiential exercises, you will be able to trust your intuition, empower your psychic skills, and have the tools to help yourself and others take control of your energy and your overall health and well-being as you confidently, psychically access your inner healer.

Put Your Intuition into Action!

You will explore, learn, and apply a variety of practical and useful techniques such as:

- Special guided meditations for evaluating your strengths; for grounding, clearing, and protection; and for improving mindfulness
- Psychically sensing the aura and its colors and using this to analyze the well-being of the total body and its energy fields
- Exercises for tuning your intuition and for connecting with your Higher Self and your Guides
- Methods to evaluate your progress and success on your spiritual path
- Creating a “heart link” to your intuition for psychic readings

Don’t miss this insightful, life-changing event—exploring your own unique soul self and learning how you can apply spiritual principles in the earth, raising your consciousness in the process.

“The more and more each is impelled by that which is intuitive, or the relying upon the soul force within, the greater, the farther, the deeper, the broader, the more constructive may be the result.”
