A.R.E./Glad Helpers'
International Prayer List

Dear Prayer Healing Friends,

We continue with the final installment of *The Story of Edgar Cayce*. The Cayce family moved to Virginia Beach in 1925, the hospital was opened in 1928 and closed in February 1931 due to the Great Depression. In June of that year, the Association for Research and Enlightenment had been formed to investigate and disseminate the information contained in the Readings.

Thank you for your dedication to this Work knowing that "(Those) that would know the way must be off in prayer, joyous prayer." (281-12) The Glad Helpers appreciate you being an integral part of this joyful service!

In Love and Light,

Karen Boldt

THE STORY OF EDGAR CAYCE: Kevin J. Todeschi

When individuals asked Edgar Cayce how they could become more psychic themselves, he responded by saying that the goal should be to become more spiritual, "For the psychic is of the soul." From Cayce's perspective, as individuals became more spiritual, psychic ability would develop naturally. Rather than trying to find converts to the readings' philosophy, people were told that if they could incorporate the information into their own religious and belief systems, enabling them to become better people, it could be a useful and positive experience; otherwise, they were advised to leave the information alone.

As the years passed, Cayce became more and more psychic in the waking state as well. He once fled from a room in sorrow because he knew that three young men would not be returning from the war. He also had developed the ability to see auras, which are fields of light that surround all living things. From these auras, Cayce could perceive people's moods as well as their overall physical condition.

As his fame as a psychic grew, so did the number of skeptics. Many people came to Virginia Beach to expose him as a fraud, but in time all were convinced of the legitimacy of what he was doing. A number stayed in Virginia Beach and received readings for themselves. One staunchly Catholic writer, Thomas Sugrue, came to Virginia Beach to investigate what he thought had to be trickery and ended up writing *There Is a River*, the highly successful Cayce biography, published in 1943 while Cayce was still alive. *Coronet* magazine, one of the most popular of the era, sent a reporter to investigate. The article, "Miracle Man of Virginia Beach," written by Marguerite Harmon Bro, drew widespread attention, and Edgar Cayce became more famous than he had ever been before.

During the height of World War II, sacks of mail were delivered to Cayce with ever-growing requests for readings. Despite the readings' warning that he should

AS HELP IS RECEIVED, REMEMBER TO THANK GOD, THE GIVER OF ALL GOOD AND PERFECT GIFTS.

The Edgar Cayce readings emphasize the importance that those who are seeking help and healing through prayer actively participate in the prayer effort—praying for themselves and others on the list—creating a cooperative prayer effort. In the giving comes the receiving.

give no more than two readings each day, Cayce began giving up to eight in an effort to keep up with requests. Gladys Davis's appointment book had readings scheduled two years in advance!

In the spring of 1944, Edgar began to grow weaker. His own readings advised him to rest, but he felt a tremendous obligation to those who were asking for his help. Finally, he collapsed from sheer exhaustion, and just as his first reading had been for himself, his last reading was for himself, given in September 1944. The reading again told him he had to rest. When Gertrude asked, “How long?” the response was, “Until [he] is well or dead.” Shortly afterward, he had a stroke and became partially paralyzed. By the end of the year, his friends feared the worst. Although Edgar told them he would be healed after the first of the year, they understood what he meant, and he died on January 3, 1945. At the time, no one really realized how ill Gertrude also was, yet within three months, on Easter Sunday, she died as well.

Gladys Davis took it upon herself to preserve the information, which she had taken such great pains to write down, until Edgar's sons returned from the war. Eventually, she took charge of the project of cataloguing and indexing the more than 14,000 readings. Because of the number of readings, as well as the follow-up reports and other documentation, the project was

not finished until 1971, more than a quarter of a century after Cayce died! Once indexed, it was discovered that the readings covered an astonishing 10,000 different subjects—nearly every question imaginable had been asked. Gladys continued working as secretary for the A.R.E. Board of Trustees and chaired the group that tackled the computerization of the readings, until her death in 1986 at the age of eighty-one.

Hugh Lynn took over the organization his father had started and was able to encourage interest all over the world. When Hugh Lynn died in 1982, the Association had grown from a few hundred members to tens of thousands.

Throughout his life, Edgar Cayce claimed no special abilities, nor did he ever consider himself to be some kind of twentieth-century prophet. The readings never offered a set of beliefs that had to be embraced, but instead focused on the fact that each person should test in his or her own life the principles presented. Though Cayce himself was a Christian and read the entire Bible every year of his life, his work was one that stressed the importance of comparative study among belief systems all over the world. The underlying principle of the readings is the oneness of all life, tolerance for all people, and a compassion and understanding for every religion in the world.
