Circulating File Order Form

Circulating Files are collections of verbatim Edgar Cayce readings and readings extracts carefully selected and arranged by topic. Research Bulletins (RBs), listed alphabetically, were created to be a reference tool for medical professionals but may also include statistical analysis for frequency of etiology and treatments. Anyone doing research must include all of the readings on that topic to grasp all the variables given for that particular medical condition.

These files are available to A.R.E. members and non-members for purchase. **Members receive a 50% discount** on the purchase price of nonmedical and medical circulating files and Research Bulletins plus postage charges, which are listed on this order form. Please allow three to four weeks for delivery; outside the USA one to three months. We can also deliver most Circulating Files by email rather than by mail. Please ask for details. Note: The complete Edgar Cayce readings are available to A.R.E. members along with selected circulating files in the online Member-only section of EdgarCayce.org.
